

When You Last Bought

When You Last Bought is a Magento 2 module that shows a logged in customer when they last bought a product. This is useful to help encourage repeat purchases, and to increase average order value.

Features:

- Displays a block on the product page indicating when the logged in customer last purchased the product
 - Handles all product types
-

Getting support

- The documentation here should be sufficient to install and configure When You Last Bought.
 - If you face issues, please raise a support ticket [via our portal](#).
-

Magento 2

Current version - 1.0.0

Documentation:
