

Available services

The following payment gateway services are currently available via the Magento 2 module:

Services	Description	Configuration Location
One-stage bank card processing	Standard bank card processing enabling merchants to process transactions using the single stage (Pay) model. Useful if the merchant wants to settle funds as soon as possible.	MasterCard Magento extension
Two-stage bank card processing	Authorisation is obtained during the checkout process, but funds are not deducted from shopper's credit/ debit card until the bank receives a fulfil request from the merchant (via MasterCard Payment Gateway Services) which indicates that goods are ready to be shipped.	MasterCard Magento extension
3-D Secure	Ability to authenticate cardholders using 3-D Secure.	<ul style="list-style-type: none">• MasterCard Magento extension• Must first be enabled on merchant account
CVV	Credit card verification number (CVV) is an anti-fraud security feature to help verify that the customer is in possession of their credit card. For Visa/Mastercard, the three-digit CVV number is printed on the signature panel on the back of the card immediately after the card's account number.	<ul style="list-style-type: none">• MasterCard Magento extension (Hosted Session)• Must first be enabled on merchant account
Advanced Risk Controls	Ability to control the outcome of a transaction based on the address and security code check undertaken by the acquirer as well as IP address and 3-D Secure.	Merchant Administration
Card Tokenisation	Ability to store tokens for use in subsequent payments. Avoids the need for the customer to enter their card numbers every time they make a purchase.	<ul style="list-style-type: none">• MasterCard Magento extension (Hosted Session, Direct API)• Must first be enabled on merchant account
Online Fraud Screening	Ability to screen transactions via the industry leading online fraud prevention tool GateKeeper:2.0.	<ul style="list-style-type: none">• GateKeeper• Must first be enabled on merchant account

To enable any of these services please contact your MasterCard Account Manager.
