

Accessing configuration

Once you have installed the MasterCard Payment Gateway Services extension, you can then configure it. To configure the extension, you first need to log into your Magento Admin Panel.

In the Magento admin panel, select **System > Configuration** from the main navigation.

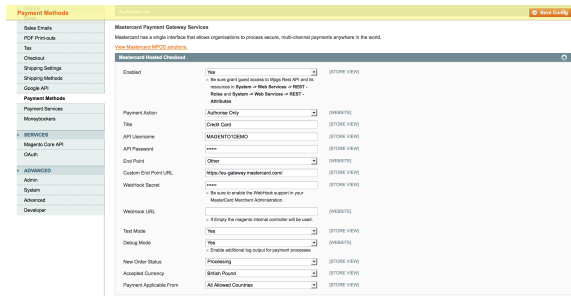

This page relates to version 1.2.1.2.
Next Steps:

- [Hosted Checkout configuration options](#)

Looking for the Magento 2 version? [Find it here.](#)

Then click on the **'Payment Methods'** option. You will find an option 'Mastercard Hosted Checkout', as shown below:

The Magento 1 module supports the "Hosted Checkout" integration method only.
